APCD Resources for Payers

Updated APCD Website - www.mass.gov/dhcfp/apcd

The screenshot shows the All-Payer Claims Database (APCD) website within a Windows Internet Explorer browser window. The browser's address bar displays the URL <http://www.mass.gov/eohhs/researcher/physical-health/health-care-delivery/hcf-data-resources/apcd/>. The website header features the Mass.gov logo, navigation links for State Agencies and A-Z Topics, and a status bar indicating "Alert - No Active Alerts". The main content area is titled "Health and Human Services" and includes a search bar and a navigation menu with links for Consumer, Provider, Researcher, and Government. The breadcrumb trail shows the path: Home > Researcher > Physical Health & Treatment > Health Care Delivery System > DHCFP Data Resources >. The main heading is "All-Payer Claims Database (APCD)", followed by a descriptive paragraph about the database's scope and purpose. Below this, there is a link to the "All-Payer Claims Database Overview" and a "Word Version" link. The "APCD Events" section mentions that DHCFP hosts meetings for updates and input. The "User Resources" section provides links to submission guides, technical assistance, and conference call information. A "Join an APCD email list" section offers an email subscription for technical assistance and data release notifications. On the right side, a "Related Links" section lists various resources, including a technical presentation, community engagement blog, public forums, and events. A "See All" link is provided at the bottom of the related links section. The browser's status bar at the bottom shows "Internet" and a 100% zoom level.

All-Payer Claims Database (APCD)

The APCD is a database comprised of medical, pharmacy, and dental claims, and information from the member eligibility, provider, and product files encompassing fully-insured, self-insured, Medicare, and Medicaid data. The APCD will afford a deeper understanding of the Massachusetts health care delivery system by providing access to timely and accurate data essential to improving quality, reducing costs, and promoting transparency.
